## Canada Fishing

The Ungava Region of Arctic Quebec is dotted with countless rivers and lakes, the large majority of which have never been fished. This is home to some of the most spectacular fishing found anywhere: big lakers, crimson colored brook trout and not to forget the Arctic Char. These packages are outfitted from our network of smaller comfortable camps located in close proximity to some great fishing. Come join us on an Arctic fishing adventure at one of our three camps: Helens Falls Salmon Camp, Lake Ikirtuuq Fishing Camp and North Fishing Camp.
