

POWWOW CREEK OUTDOORS

South America Big Game Hunt

Red Stag

These majestic animals introduced from Europe in the early 1900's, are found in the rugged mountains of the northern Patagonia. The rut begins mid March and runs through April. Ours is a true fair chase hunt. The success rate is close to 100%. However, you will still have to work for your trophy. Many gold medals have been taken and there is no surcharge for big trophies. We hunt twice a day, driving, riding horses or walking. Every hunter has a personal guide.

Red Stag ... \$5,495

This is a six (6) day hunt for the Argentinean Red Stag. Season in Argentina lasts from March to May. An extra Stag may be taken for \$3,000.

*All hunts include Ground transfer, Bilingual host, all meals and beverages while in hunting area
